New York State Disclosure Form for Buyer and Seller

THIS IS NOT A CONTRACT

New York State law requires real estate licensees who are acting as agents of buyers or sellers of property to advise the potential buyers or sellers with whom they work of the nature of their agency relationship and the rights and obligations it creates. This disclosure will help you to make informed choices about your relationship with the real estate broker and its sales agents.

Throughout the transaction you may receive more than one disclosure form. The law may require each agent assisting in the transaction to present you with this disclosure form. A real estate agent is a person qualified to advise about real estate.

If you need legal, tax or other advice, consult with a professional in that field.

Disclosure Regarding Real Estate Agency Relationships

Seller's Agent

A seller's agent is an agent who is engaged by a seller to represent the seller's interests. The seller's agent does this by securing a buyer for the seller's home at a price and on terms acceptable to the seller. A seller's agent has, without limitation, the following fiduciary duties to the seller: reasonable care, undivided loyalty, confidentiality, full disclosure, obedience and duty to account. A seller's agent does not represent the interests of the buyer. The obligations of a seller's agent are also subject to any specific provisions set forth in an agreement between the agent and the seller. In dealings with the buyer, a seller's agent should (a) exercise reasonable skill and care in performance of the agent's duties; (b) deal honestly, fairly and in good faith; and (c) disclose all facts known to the agent materially affecting the value or desirability of property, except as otherwise provided by law.

Buyer's Agent

A buyer's agent is an agent who is engaged by a buyer to represent the buyer's interests. The buyer's agent does this by negotiating the purchase of a home at a price and

on terms acceptable to the buyer. A buyer's agent has, without limitation, the following fiduciary duties to the buyer: reasonable care, undivided loyalty, confidentiality, full disclosure, obedience and duty to account. A buyer's agent does not represent the interest of the seller. The obligations of a buyer's agent are also subject to any specific provisions set forth in an agreement between the agent and the buyer. In dealings with the seller, a buyer's agent should (a) exercise reasonable skill and care in performance of the agent's duties; (b) deal honestly, fairly and in good faith; and (c) disclose all facts known to the agent materially affecting the buyer's ability and/or willingness to perform a contract to acquire seller's property that are not inconsistent with the agent's fiduciary duties to the buyer.

Broker's Agents

A broker's agent is an agent that cooperates or is engaged by a listing agent or a buyer's agent (but does not work for the same firm as the listing agent or buyer's agent) to assist the listing agent or buyer's agent in locating a property to sell or buy, respectively, for the listing agent's seller or the buyer agent's buyer. The broker's agent does not have a direct relationship with the buyer or seller and the buyer or seller can not provide instructions or direction directly to the broker's agent. The buyer and the seller therefore do not have vicarious liability for the acts of the broker's agent. The listing agent or buyer's agent do provide direction and instruction to the broker's agent and therefore the listing agent or buyer's agent will have liability for the acts of the broker's agent.

Dual Agent

A real estate broker may represent both the buyer and seller if both the buyer and seller give their informed consent in writing. In such a dual agency situation, the agent will not be able to provide the full range of fiduciary duties to the buyer and seller. The obligations of an agent are also subject to any specific provisions set forth in an agreement between the agent, and the buyer and seller. An agent acting as a dual agent must explain carefully to

both the buyer and seller that the agent is acting for the other party as well. The agent should also explain the possible effects of dual representation, including that by consenting to the dual agency relationship the buyer and seller are giving up their right to undivided loyalty. A buyer or seller should carefully consider the possible consequences of a dual agency relationship before agreeing to such representation. A seller or buyer may provide advance informed consent to dual agency by indicating the same on this form.

of the real estate broker. With the informed consent of the buyer and the seller in writing, the designated sales agent for the buyer will function as the buyer's agent representing the interests of and advocating on behalf of the buyer and the designated sales agent for the seller will function as the seller's agent representing the interests of and advocating on behalf of the seller in the negotiations between the buyer and seller. A designated sales agent cannot provide the full range of fiduciary duties to the buyer or seller. The designated sales agent must explain that like the dual agent under whose supervision they function, they cannot provide undivided loyalty. A buyer or seller should carefully consider the possible consequences of a dual agency relationship with designated sales agents before agreeing to such representation. A seller or buyer may provide advance informed consent to dual agency with designated sales agents by indicating the same on this form.

Dual Agent with Designated Sales Agents

If the buyer and seller provide their informed consent in writing, the principals and the real estate broker who represents both parties as a dual agent may designate a sales agent to represent the buyer and another sales agent to represent the seller to negotiate the purchase and sale of real estate. A sales agent works under the supervision

COMMISSION PAYMENT AUTHORIZATION

New York State Real Property Law considers the real estate commission due at the time of the meeting of the minds, which would be at the time a Purchase Offer or Lease is accepted. However, most real estate companies, including Keller Williams Syracuse, defer the actual collection of this earned commission until the closing of the sale or lease execution. In consideration of this deferred commission collection we request your authorization for collection of the commission at the closing or lease execution from the proceeds or a certified check.

To: Attorney, Closing Agent or Lender's Attorney:

I (we) hereby authorize and request that the real estate commission for the sale/lease/exchange of the above property, or any portion thereof outstanding, be disbursed from the proceeds of the sale/lease/exchange at the time of closing or lease execution as billed to Keller Williams Syracuse, which will indicate direct payment to the applicable real estate companies involved. In the event the proceeds are insufficient, the balance shall be paid by a certified check drawn on or official check issued by any bank, credit union (provided such check is drawn on a New York State bank) or savings and loan association having a banking office in the State of New York.

Why We Love 309 Scottholm Terrace

This house is the perfect balance of classic colonial charm with the luxury of modern updates. We put our hearts, souls, and backs into completely renovating every inch of the house between 2009 and 2010. From brand new doors and lighting with all brushed nickel accents, to refinished bathrooms that have a spa-like feel, and an updated kitchen with gorgeous granite and stainless steel appliances, we agonized over every minute detail to make our home warm, functional, and stylish. The new windows and furnace were updates that proved invaluable – we no longer dread opening the National Grid bill (the first two-bedroom apartment we ever lived in had higher energy costs!).

We are also in love with the neighborhood, and can honestly say we wouldn't want to live in any other area in Central New York. Our neighbors are so incredibly friendly and helpful – from clearing our driveway when our snow blower broke, to bringing our trash cans to the door during a downpour, and mowing the lawn when we are on vacation, we could not ask for better people to be surrounded by. We like that the lifestyle around here is so active, with jogging lanes up and down Meadowbrook, neighbors are always out exercising and dog walking. Convenience is also another huge benefit of this neighborhood – we are literally close to EVERYTHING. Parks, universities, highways, grocery stores, Erie Blvd, malls... it has all the conveniences of the city, while possessing the tranquility and safety of the suburbs. We especially enjoy the quiet during warm evenings on our front porch- tucked away behind our landscaping, we spend hours enjoying the peacefulness.

RADON GAS MEASUREMENT REPORT

Location: Mr. Joseph Lebedev Date: 8 March 02
309 Scottsholm Ter Tech: Lej
Syracuse NY 13224

This is the report of a radon gas screening measurement. The measurement was performed using a continuous radon monitor (CRM), and was performed in conformance with test protocols established by the US Environmental Protection Agency in the document entitled "Protocols for Radon and Radon Decay Product Measurements in Homes."

The report in the adjacent column is a photocopy of the actual report that was obtained from the CRM upon completion of the measurement period.

The measurement period was 50 hours.

Test Date 6 March 02 Start 1230 AM End 8 March 02

During the measurement period radon gas measurements were recorded once every One hour(s).

The serial number of the CRM deployed for this measurement is: 085066

Explanation of Report Data:

Tabular Data: This portion of the report provides a numerical listing of the radon gas measurements that were made throughout the measurement period.

Average: This portion of the report gives the average radon gas concentration measured during the entire measurement period. This average is computed in two ways. The "Overall Average" is the simple average of all of the values listed in **Tabular Data**. The "EPA Average" is the simple average of all of the values listed in **Tabular Data**, except those values recorded during the first four hours of the measurement period. The "EPA Average" is computed in a manner consistent with the protocols cited above.

Bar Graph: This section provides a graphic representation of all of the values that are listed in the **Tabular Data**.

Other Information: In the printout, the letter "p" or "T" may appear next to a given value. The "p" indicates that, during this measurement interval, the power was disconnected from the CRM. The "T" indicates that, during this measurement interval, the CRM was disturbed or moved.

The radon gas measurement was completed and there is no evidence that the CRM was tampered with in any way. Therefore, the average values contained in this report reflect the radon gas concentration at the time of the test and should not be construed as either predictive or supportive of a similar measurement conducted at another time in the same structure.

The radon gas measurement was completed and there is evidence that the CRM may have been tampered with during the measurement period. Therefore, the measurement values are not considered valid, and further testing is recommended.
